

THE ONE SOURCE FOR YOUR COMPANY'S OCCUPATIONAL HEALTH NEEDS

“It makes good business sense to protect and promote the health and safety of employees in your workplace.”

Occupational Health Services of Norwalk Hospital offers comprehensive and customized Occupational Medicine and Rehabilitation services aimed at keeping your workforce healthier and more productive. From acute injury management and therapeutic interventions to cost-effective Prevention, Risk Reduction, Education and Wellness Programs, Occupational Health Services of Norwalk Hospital will meet your ever-challenging task of hiring and maintaining a healthy workforce. Through specialized programs and services provided by our Medical and Therapy team, work-related injuries can be reduced and their financial impact lessened. We tailor Occupational Health Services to each client company's needs and regulatory constraints. Whether it's inoculations provided to a traveling business executive and family through International Travel Medicine, Pre-employment, Annual Physicals and Drug Testing, an Ergonomic Job Site Analysis of a high-risk production area, or 24/7 Medical Treatment of an injured worker, Occupational Health Services will meet your company's needs.

Our expansive, new facility is conveniently located near Norwalk Hospital at 520 West Avenue and offers one-stop shopping to our clients and their employees. The clinic is outfitted with state-of-the-art therapy equipment for acute or chronic injury treatment, work conditioning, and functional capacity testing, and our dedicated occupational healthcare team is lead by an experienced occupational physician.

Occupational Health Services of Norwalk Hospital is uniquely positioned to provide a full range of medical and therapeutic care, education, and case management, which will enable your employee to remain safe, healthy and productive. Call us for a free consultation.
